No	Specifications of the finished product	Results
1.	Appearance	Liquid
2.	Colour	Characteristic for used dyes
3.	Aroma	Characteristic for used raw materials
4.	ph [20°C - 28°C]	-
5.	Density [g/cm <sup>3</sup> ] 20°C	-

## Undesirable effects and serious undesirable effects

The cosmetic product with a similar composition has been supplied to the market in the long term and until nowadays, no undesired effects to human health have been noticed in relation to the use of this product. Therefore, no undesired effects are anticipated at the common and reasonably predictable application of the given cosmetic product.

In accordance to procedures detailed in Cosmetic Regulation (EC) No 1223/2009. The safety of the product should be reviewed on a regular basis. To that end, undesirable and serious undesirable effects on human health during in market use of the product should be filed (complaints during normal and improper use, and the follow-up done) and details forwarded to the safety assessor.

The safety assessor will then update the Cosmetic Product Safety Report (CPSR) based on the new findings and the adopted corrective measures.
